

Big Bend Community College Estimated Employment Explanation

The Estimated Employment Report is derived from Washington State Board for Community and Technical Colleges (SBCTC) data warehouse statistics matched with unemployment insurance earnings from Washington, Oregon, Idaho, Montana, and Alaska. It calculates the estimated employment rate for students that attended and left BBCC. The data is gathered when employers report earnings to Unemployment Insurance.

Title of Program

45+Credits and 2.0 g.p.a.:	Without a degree or certificate
Certificate:	Certificate awarded, less than 90 credits
Degree:	Two-year degree

Total: Number from a program. Students included in this are students fit at least one of the criteria below.

Students who have obtained 45+Credits and 2.0 g.p.a.

Students who received a completion exit code (short term training)

Students who received a Certificate of Accomplishment

Students who received a Certificate of Achievement

Students who received an Associate of Applied Science

Rate: Adds employed and *estimated employed* to calculate the employment rate.

Based on results of earlier surveys, SBCTC estimates that 30% of those not found in "covered employment" in the 3rd quarter are employed (self-employed or employed in states other than Washington, Alaska, Oregon, Idaho and Montana).

This comes out once a year. This is the most current information available.
